

Simply Remind Me : User Guide

- [Changelog](#)
- [Donate](#)

Changelog

This page shows a history of the released versions of Simply Remind Me and the improvements, new features and bugs fixed.

Version 4.0.3

Date released: 27th September 2023

Bug fixes

- Corrected a server error when editing a user profile where the country code auto-detection for mobile numbers did not find anything
- The upcoming event dashboard widget now shows dates correctly as "1st" instead of "01st"

Version 4.0.2

Date released: 25th September 2023

Bug fixes

- The upcoming event dashboard widget now correctly detects upcoming events that have a specific time

Version 4.0.1

Date released: 23rd September 2023

Improvements

- Simply Remind me now includes a brand-new icon in your browser (known as a favicon.) If you save the app to your phone's home screen, it should also now feature this icon.

Bug fixes

- Corrected a server error when choosing to skip the welcome screen for new user accounts.

- Corrected a server error when using the "Remind me again" feature from email reminders.

Version 4.0.0

Date released: 23rd September 2023

Improvements

- Simply Remind Me now features a new, open API (more to come on this soon).
- We also make use of Laravel Livewire for more interactive components and quicker development time.

New features

- You can now configure your default reminder method. In the Reminder Settings screen (your name → My Profile → Reminder settings) simply choose which you prefer to be your default: email, text message, voice call or push notification.
- Credits for text message and voice call reminders can now be purchased in US Dollars (USD) and Euros (EUR) as well as Pound Sterling (GBP). Simply choose the currency from the drop-down menu when topping up.

Bug fixes

- Adding a new reminder defaults to "email" as the reminder method - it now follows the same default rules as creating a new event.

Version 3.4.1

Date released: 28th July 2023

Bug fixes

- Fixed an issue with the day calculation in the event's "Due in X days" label.

Version 3.4.0

Date released: 25th July 2023

Bug fixes

- New reminders default to SMS as intended.

Improvements

- Events can now repeat bi-weekly and quarterly.
- The “Due in X days” label now takes into account an event’s due time, if it has a specific time.

Version 3.3.4

Date released: 17th July 2023

Bug fixes

- Events and reminders on the calendar are now correctly displayed in your local time.
- The "Next Event" dashboard widget now respects your timezone correctly.
- The "Next Event" dashboard widget now shows an event as the next event if it either has no specific time, or if the time has not yet been reached on the day.

Donate

Simply Remind Me offers free email reminders using a premium email delivery service, as well as text message, phone call and free push notification reminders.

The app is financially supported by customers purchasing credits for text message and phone call reminders.

If you want to support the app, but don't want to use text message or phone call reminders (and therefore you won't need to purchase credits) you can still make a donation to support the on-going maintenance (such as infrastructure costs) and future development of the app.

Please note

- Donations are non-refundable
- You can choose to donate any amount but your donation must meet the [minimum payment amount](#) from our payment provider, Stripe

Donation Links

You can make a donation of your choosing using the links below:

Currency	Donation link
Pound Sterling (GBP)	Make a donation (GBP)
Euro (EUR)	Make a donation (EUR)
US Dollar (USD)	Make a donation (USD)
